

### Materials needed:

- A printer
- Copy paper
- Scissors
- Drawing materials
- Glue
- Hole punch
- String, ribbon or an old shoe lace
- Creativity

### Optional:

- Cardboard (empty cereal box or another thin cardboard box)

### Directions:

Print this page on new paper or paper that has been printed on one side already. After printing, use the rectangle on your bookmark to draw or paste images of the environment that you want to protect.

When finished cut along the edges. If you want a sturdy bookmark, use an empty cereal box to cut a rectangle the same size as your bookmark. You can then glue your bookmark onto the cardboard.

When you are finished use a hole punch to punch out the hole indicated at the top of your bookmark and tie a string, ribbon or an old shoe lace through the hole.

Now your bookmark is ready. It will be a daily reminder of your pledge and responsibility for Protecting the Environment Today . . . for a Better Tomorrow.
